

Modernity and professional

As DVD and projector are more and more popular, equip a set of home-movie system become a hot point among the fans. The famous brand GRANDVIEW from Canada specially produced and recommend the latest tab-tension model motorized screen to the every family. Top technology, refinement staple, perfectly regain the true color and enjoy in a wonderful movie paradise.

Vivid image & clear administrative levels

It is used GRANDVIEW special flexible screen fabric PS series, the surface of it is characterized mini-type and fine diamond veins, texture exquisite, texture lubricity and smoothness, then it not only can cancel light wave vein and dazzling light, but also can perfect reductive color much more saturated; Meanwhile, the vision is extensive, wherever the audience seat, they also can see the same clear and luculent pictures. Pure color on the basic surface of the screen, it shows light and shade administrative levels and exuberance and exquisite. The contrast is trenchancy and not glare, the quality feeling is very downright and the popular feeling is fineness. As long as have GRANDVIEW Large-Flat series screen, even you are at home, you also can enjoy the top visual taste of the professional cinema with specialty film.

Absolutely level-up and no transmutation

Large-Flat series Tab-Tension model of Grandview use scientific production arts and crafts, SOMFY extra heavy duty motor, it can avoid "V" shape of the middle screen effectively. the sides of the screen have self-tightening with bounce distaff system, it can cancel the "V" shape automatically which normal screen can't do, thereby, the whole screen will be level as the mirror. Whenever you have GRANDVIEW Large-Flat series screen, you can enjoy big wonderful pictures and convulse vision.

World-top motor

Adopted the world famous French SOMFY motor, its special noisy control design brings the screen stableness, quite and slipperiness in the operation.

Over-large picture and top enjoyment

The max seamless size of Tab-Tension model achieve 200 inches and makes the picture much more wonderful.

Handsome exterior

Black alloy outer case, inosculated with modern and popular furniture designing taste, it also can avoid vision interfering when you watching the cinema. The screen outer case also can be installed into decorate box or groove of the ceiling, just press the remote controller lightly, the screen will drop slowly, don't need your hand entirely.
